

Attention: CNN News Maker

June 11 .2008

I am sending this letter as a follow up to my original letter dated June 10.2008, in which I also sent you enclosures to verify the authenticity of numerous articles that were brought to my attention regarding the current Bush administration. I addressed this to you because of your status as the most trusted news maker in the world. If these articles contain factual information then it should be relayed to the American public as well as the rest of the world.

I have also sent copies of these articles to the NY Times, Washington Post as well as world leaders (John McCain, Hillary Clinton, Barack Obama), including senate majority & minority leaders. I am not a large organization and do not have the resources necessary to verify the authenticity of these stories but feel that there is some truth to what they are saying. As a humanitarian, educator, peace & environmental activist I felt it was my moral duty to bring these articles to light. It is for this reason I have sent them to your organization as well as to world leaders and newspapers around the US.

I trust that if you find this information to be authentic then you will uphold your moral duty to the American public and report it to the world.

Sincerely,

Mr. Mahmud Hussein
