Dear Mr. Barak

I would like to express my opinions to you and I am speaking to you under the privilege of The Freedom of Speech, Canadian Charter of Rights & U.S. Bill of Rights.

You don't know me and I don't know you personally either. But I do know off your character, accomplishments and leadership qualities. In my opinion, while you were in the role of *Chief of Military for Israel* and then *Prime Minster of Israel* you conducted yourself in an exceptional manner. Demonstrating ***pride, honesty & integrity*** through your actions to protect & prosper Israel. It may surprise to see my Muslim name and background, but I am a secular human being. I have tremendous respect and admiration for you, your country and the Israeli people.

It disturbs me to see terrorist attacks and threats being brought against the innocent civilians of Israel. For the past 20 years I have taken it upon myself to write to many World Leaders (including Ariel Sharon), whose decisions are putting humanity and our future at risk. Politic decisions made in the past and the present are having damaging effects for our future. The time has come to stop making unjust one sided political decisions which are fueling hate, terrorism & creating division amongst mankind.

In the hopes of making a difference in the world today I have create ***Omni Search Services Ltd.***, with its ultimate aim to create a better world thru educating and molding minds. Through Omni Search Services Ltd. I have developed a curriculum to educate children around the world. Through this new program my goal is to eliminate everlasting borders that fuel conflict based on race or religion. My dream is to begin educating our children of today, so that the future of tomorrow will be bright. Through our developed programs my aim is to bring the world together as one people, to eliminate conflict. My vision is to cease focusing on our differences based on race and religion, and start focusing on our similarities as human beings.

The world of today is everlastingly changing, from our environment, poverty, food crisis, conflicts within nations and conflicts between nations. These problems are not getting resolved nor are they going away, but seem to be getting bigger and beyond our control. We as human beings are forgetting that we are all human beings; we have much more in common than we do differences and thus we should be focusing on our commonality. We need to come together and find solutions for the problems we face today, for mankind regardless of race or religion. I would like to kindly invite you to visit my website at [www.omnisearch.org](http://www.omnisearch.org) so that you may view my proposal and also my personal website at [www.mahmudhussein.com](http://www.mahmudhussein.com) (which will be active within the week). This is not a solicitation for funds as I will be financing this project on a philanthropic and benevolent basis. My aim is only to seek your support and your valued feedback as a prominent and well respected world leader. I respectfully await any opinion you might share.

Sincerely,

*Mr. Mahmud Hussein*
