

**Honorable President of Venezuela
Mr. Hugo Chavez**

May 21.2008

Dear Mr. President,

It is with esteem pleasure that I honor you for your outstanding presidential duty. You have and continue to serve your nation with great integrity, love & respect. You have also set a great example and have shown the rest of the world your courage and your moral authority with your presidential experiences under the privilege of freedom of speech.

Your speech addressing the United Nations general assembly criticizing the United States President George W. Bush (cowboy president of the United States “Arbusto” in their own backyard) was done with integrity and exemplified fearless leadership & authority. While watching you on CNN delivering your speech at that time, I felt it was the happiest moment in my entire life.

United States double standard foreign policy lead by Dick Cheney & George W. Bush has created an unimaginable mess that will take 30 years to correct. In August 2007 I had meeting with top executives for the Royal Bank of Canada, I was asked my opinion on where the price of crude oil was heading. My response to them was that I thought prices would hit between \$110-\$120 per barrel in the 1st quarter of 2008. I was right, as prices today have exceeded my prediction to \$130 per barrel.

American Economists are predicting that oil prices will be down to \$95 per barrel by years end (they are economists but they can't pay their mortgages). I believe prices will hit \$200 per barrel by the end of the year. I am addressing environmental issues strongly in my enclosures, but these issues will also take 30 years to rectify. By that time Venezuela will be the richest country in South America.

I have a lot of respect & love for you and also offer my prayers for you, your family and your nation. All mighty Heavenly Father will protect you sand your nation. I believe in as such, ***That God is Creator, God is Protector, God makes Provision...We are just Beneficiary.*** So “Arbusto” is powerless against you & your nation. You will live longer and your nation and country will be nourished & flourished by the grace of Heavenly Father.

Note:

Please be advised that it may surprise you to know that my name be it from a Muslim background, never the less I worship the same god as you and your nation.

Sincerely,

Mahmud Hussein
