

*Honorable former President Jimmy Carter*

June 4.2008

Dear Mr. President

I would like to introduce myself as a peace activist, environmentalist, humanitarian & philanthropist. I am writing this letter to you with the highest respect. I would like to share with you my concerns & solutions for the problems we face in our world today. The world of today is everlastingly changing, from our environment, poverty, food crisis, conflicts within nations and conflicts between nations. These problems are not getting resolved nor are they going away, but seem to be getting bigger and beyond our control. These situations have driven me to create *Omni Search Services Ltd.*

I believe some of the goals I am trying to achieve through *Omni Search Services Ltd.* are similar to that of which you have been pursuing for so many years after your Presidency. In the same respect of which leaders around the world hold you in high regard for your work as a *humanitarian, socialist, economist and world peace maker*. I would like to also express how proud I am of you as my brother under the Lord Jesus Christ. The goals you are trying accomplish with World Peace are going to make this world a better place for everyone as human beings.

I am very disappointed with the unjust criticism by U.S. politicians, U.S. media and even some of the U.S. citizens (who are unaware of the impact politics has on peace globally) regarding your visit to Palestine to have dialogue with Hamas and your effort to bring peace to the middle east.

In my view the US citizens are good people, but have been brainwashed by a few politicians who are out of touch with the consequences of their unjust political decisions/judgments (For example, President George W. Bush, Dick Cheney, John McCain, Lindsay Graham and democratic Joe Lieberman). The actions of some of these politicians have created division around the world. Many countries and their citizens now view the US as a threat to global peace, they are now looked at like the terrorist they were originally trying to stop. The US now only has a few allies left, which will soon disappear based on their actions. It has already been demonstrated that any world leader who was a friend on George W. Bush has lost their Presidency or Prime Minister position, and they have become a political liability to their Nation.

I would like to tell you a personal story of my life:

I had open heart surgery in August 1988 and I had 3 blockages again in June 2007. I did angioplasty for 2 of the blockages at the St. Michael's hospital in Toronto, which was successful. I was doing well after the surgery when suddenly on January 25, 2008 I received severe chest pains. I was out with my personal driver of 18 years Mr. Domingo Marzo and Mr. Amanullah Khan Patel, Vice President of my company for 20 years. I instructed Mr. Marzo to take me home immediately so that I could take my Nitro spray which is used to relieve chest pain, and also to get some rest. Before entering my home, I instructed Mr. Khan Patel to go to my room and retrieve the Nitro Spray so that I could consume it before entering my home, I was close to death. I have only one son and a 5 year old grandson, when we arrived at the house, Mr. Patel alerted my son of the situation. My son ran nervously to the room to retrieve the Nitro spray. I took 5 sprays to reduce the chest pain; this exceeds the recommended dosage by cardiologists. My son and Employees took me to the nearest Hospital at Emergency, North York hospital in Toronto. My son and Mr. Marzo put me in a wheel chair and took me to the emergency desk. They advised the Nurse that I was having severe chest pain and that I am a heart patient. I was admitted immediately and treated with ivy. I was given Nitro liquid and heparin (obviously not made in China but made in Canada) which stabilized me for a few days. I was advised to return to St. Michael's hospital again for yet another blockage that needed treatment. I was admitted to St. Michaels and they managed to strain only one blockage. I am telling you my personal story is for the following reason. When my son and 2 Employees took me to the hospital, if the hospital treated them instead of me, then I would have been dead. I was the sick patient, not them. So in the same manner, direct communication should be done to Hamas who is, in this case, the sick patient and enemy. It is of no use speaking to our Friends and Allies, we must go to the source of the problem, not a third party.

I would like to express to you that I whole heartedly support you and your position on dealing with Global conflicts. I congratulate you for sitting down with Hamas and having an open dialogue to try and resolve their situation for peace. I am a strong believer that to resolve any disagreement, we need to sit down and have an open discussion with those we have the conflict with, discussing the problem with our friends and neglecting the problem won't solve anything.

I would like to kindly invite you to visit my website at [www.omnisearch.org](http://www.omnisearch.org) so that you may view my peace proposal and also my personal website at [www.mahmudhussein.com](http://www.mahmudhussein.com) and my business website [www.mhcrudeoil.com](http://www.mhcrudeoil.com).
