

To Honorable Ambassador of Iran

Honorable President Mahmoud Ahmadinejad

May 27, 2008

Dear Mr. President

I am respectfully writing to draw your kind attention to my proposal of “*A Long Term Solution For Peace*”. I have addressed letters to many world leaders around the globe. I have received many positive responses and encouraging words for my mission of peace. Some replies have come from **Bill Clinton, Tony Blair, Gordon Brown, Prince of Wales, Ariel Sharon, Her Majesty the Queen of England, Pope Benedict XVI** and many more. As an educator, philanthropist, human rights activist and environmental activist my vision is to create a world peace solution for humanity, regardless of race or religion.

I would like to express my opinions to you and am speaking to you under the privilege of Freedom of Speech, Canadian Charter of Rights & U.S. Bill of Rights. In my view it is very unfortunate that Iraq & Iran were engaged in war against each other. It has always been my belief that Saddam Hussein was manipulated by the American government for their own interest, neither the interest of Iran or Iraq. In my opinion Shia's & Sunni's have no reason to create division amongst themselves; they are all following the same one God and followers of the same one Prophet. We are all human beings & people of God regardless of religion. In the eyes of God there is no exception, all human beings must be treated equally & show respect to one another.

In my opinion Saddam Hussein was naive and he was used like a doll by out of control lunatic kids. If there had never been war between Iran & Iraq, these two countries would have been the richest countries on the earth. Saddam Hussein acted like a child once again when he invaded Kuwait and started The Gulf War. The cost of this childish behavior was the fortune of his Nation.

Saddam still did not demonstrate that he had learned his lesson, when he acted as if he was in possession of **Weapons of Mass Destruction (WMD)** and challenged the superpowers. It was a far greater mistake by United States politicians with their decision to invade Iraq. Once again Saddam Hussein acted like a child, similar to that of former Panamanian President Manuel Noriega. If Saddam was not in possession of weapons of mass destruction he should not have acted in that manner. He should have been open for world to see, especially countries like Russia, China & India. This action would have saved and protected his countries interest.

I appeal to you to realize and understand the situation your nation is faced with and urge you to make peaceful compromises and establish peaceful relationships with the United States, United Kingdom, France, Germany, Russia and China. I understand your position and the situation surrounding your administration & country. I especially urge you not to create an arsenal of nuclear weapons based on the feeling that many countries are against you but, rather create friendships with the Arab League and those countries.

United States politicians have always been wrong morally, religiously, politically and socially with their decisions for the last fifty years. They are addicted to war and promoting terrorism. Yet the people of the U.S. are good, but have been brainwashed by their politicians. Politicians around the world are disturbing the elements of society because they act only for themselves not in the interest of their own nation.

Your neighbors (Pakistan, India, Israel) can have nuclear weapons because they are allies of the U.S., but your country cannot because yours is a sovereign nation. What if tomorrow crazy Pakistan attacks your country, you will not be in a position to protect your nation. The United States and their allies can be in possession of nuclear weapons but you cannot. This is an example of the infamous U.S double standard policy. They are promoting terrorism with their actions. I am 100% against terrorism.

There are many factors in the world today that have driven me to create Omni Search Services Ltd., with its ultimate aim to create a better world thru educating and molding minds. Through *Omni Search Services Ltd.* I have developed a curriculum to educate children around the world. Through this new program my aim is to eliminate everlasting borders that fuel conflict based on race or religion. My dream is to begin educating our children of today, so that the future of tomorrow will be bright. Through our developed programs my aim is to bring the world together as one people, to eliminate conflict. My vision is to cease focusing on our differences based on race and religion, and start focusing on our similarities as human beings.

The world of today is everlastingly changing, from our environment, poverty, food crisis, conflicts within nations and conflicts between nations. These problems are not getting resolved nor are they going away, but seem to be getting bigger and beyond our control. We as human beings are forgetting that we are all human beings; we have much more in common than we do differences and thus we should be focusing on our commonality. We need to come together and find solutions for the problems we face today, for mankind regardless of race or religion. I would like to kindly invite you to visit my website at www.omnisearch.org so that you may view my proposal and also my personal website at www.mahmudhussein.com (which will be active within the week). This is not a solicitation for funds as I will be financing this project on a philanthropic and benevolent basis. My aim is only to seek your support and your valued feedback as a prominent and well respected world leader. I respectfully await any opinion you might share.

Sincerely,

Mr. Mahmud Hussein

President, Owner
