

Honorable Prime Minister Salam Fayyad
Prime Minister of Palestine

May 28,2008

Dear Brother,

I would like to express my opinions to you and am speaking to you under the privilege of The Freedom of Speech, Canadian Charter of Rights & U.S. Bill of Rights.

I am writing this letter to draw your kind attention to today's troubling world issues. I feel that it's my moral duty & obligation to write this letter to you and offer my perspective views in the hopes that you realize the troubling situation surrounding you and your nation.

I have sent letters in the past regarding the Middle East Peace Map, to the cowboy president of the United States, George W. Bush and President Mamhoud Abbas was also carbon copied on these letters. I am enclosing a copy of the letter sent for your reading.

Whether within the United States or outside for the world to see, George W. Bush puts on a dramatically good act to give the impression he cares and is doing something to bring peace to the Middle East. After analyzing this situation for the past five years and watching things progressively get worst, in my opinion you have two options. First, if you believe yourself to be an Islamic fundamentalist then disregard my letter, and I will take no offense to that action. But if you truly love yourself, your family & you're nation, you should take the following actions. Build friendship with Israel & and stop the killings of their innocent citizens. This can be accomplished without involving the United States or their allies. There is absolutely no need for third party participation, especially when such parties agenda are deceiving and misguided. Direct negotiations with the appropriate Israeli leaders will produce a much faster & peaceful resolution to the turmoil in the Middle East.

Should you take action and follow this option you will be recognized as a hero throughout all Muslim nations. This action will set a precedence that the world has never seen and Islam will be recognized for peace, not hate.

The United States has demonstrated an unjust double standard foreign policy for the last 50 years. They utilize Israel like a plastic doll played with by lunatic out of control kids. My opinion, which I am voicing from my heart, is that the United States does not care about Israel or Israeli citizens. As a superpower nation, they have failed to take steps to protect their own nation, citizens and future generations how can they be expected to resolve the Middle East conflict. The United States is a war monger nation that has been very good at giving the illusion of trying to bring peace to the middle east, but they have kept this conflict alive for their benefit. A divided Middle East is much easier taken advantage off than a unified Middle East, and this is the premise on which the United States has operated on for the past several years. They will keep this conflict alive until the Day of Resurrection/Day of Judgment.

I urge you to take action and eliminate the middleman and bring peace to the Middle East.

Sincerely,

Mr. Mahmud Hussein
