*His Highness King Abdullah bin Abdul Aziz Al Saud of Saudi Arabia*

I am respectfully writing to draw your kind attention to my proposal of “**A Long Term Solution For Peace**”. I have addressed letters to many world leaders around the globe, and have received many positive responses and encouraging words for my mission of peace. Some replies have come from **Bill Clinton, Tony Blair, Gordon Brown, Prince of Wales, Ariel Sharon, Her Majesty the Queen of England, Pope Benedict XVI** and many more. In 2003 I also sent a letter to King Fahd regarding: The Middle East Peace Map initiated by George W. Bush, but unfortunately I did not receive a reply. As an educator, philanthropist, human rights activist and environmental activist my vision is to create a world peace solution for humanity, regardless of race or religion.

There are many factors in the world today that have driven me to create Omni Search Services Ltd., with its ultimate aim to create a better world through educating and molding minds. Through **Omni Search Services Ltd.** I have developed a curriculum to educate children around the world. Through this new program my aim is to eliminate everlasting borders that fuel conflict based on race or religion. My dream is to begin educating our children of today, so that the future of tomorrow will be bright. Through the development of our programs my aim is to bring the world together as one people, to eliminate conflict. My vision is to cease focusing on our differences based on race and religion, and start focusing on our similarities as human beings.

The world of today is everlastingly changing, from our environment, poverty, food crisis, conflicts within nations and conflicts between nations. These problems are not getting resolved nor are they going away, but seem to be getting bigger and beyond our control. We as human beings are forgetting that we are all human beings; we have much more in common than we do differences and thus we should be focusing on our commonality. We need to come together and find solutions for the problems we face today, for mankind regardless of race or religion.

I am very impressed with your conduct and the leadership you have demonstrated to your country as well as the world. I am not seeking any sort of monetary benefit but rather your moral support, so that this vision can be materialized from a conceptual stage to a comprehensive education program. I would also appreciate and value your opinion on demonstrating these moral and family values to Islam around the globe. I would like to kindly invite you to visit my website at [www.omnisearch.org](http://www.omnisearch.org) so that you may view my proposal and also my personal website at [www.mahmudhussein.com](http://www.mahmudhussein.com) (which will be active within the week). My aim is only to seek your support and your valued feedback as a prominent and well respected world leader. I respectfully await any feedback you might share.

Sincerely,

*Mr. Mahmud Hussein*
