

Honorable Former Prime Minister Tony Blair

June 18, 2008

Dear Mr. Tony Blair

I would like to introduce myself as a ***peace activist, educator, environmentalist, humanitarian & philanthropist***. I am writing this letter to you with the highest respect. I would like to share with you my concerns & solutions for the problems we face in our world today. The world of today is everlastingly changing, from our ***environment, poverty, food crisis, conflicts within nations and conflicts between nations***. These problems are not getting resolved nor are they going away, but seem to be getting bigger and beyond our control. We as human beings are forgetting that we are all human beings; we have much more in common than we do differences and thus we should be focusing on our commonality. We need to come together and find solutions for the problems we face today, for mankind regardless of race or religion. These situations have driven me to create ***Omni Search Services Ltd.***

The main goal of ***Omni Search Services Ltd.*** is to create a better world thru educating and molding minds. Through Omni Search Services Ltd. my vision is to begin educating our children in a multicultural way, embedding in them tolerance of other nationalities, religion, cultures as well as empowering them with the ability to choose right from wrong.

I am developing a curriculum to educate children around the world. Through this new program my aim is to eliminate everlasting borders that fuel conflict based on race or religion. My dream is to begin educating our children of today, so that the future of tomorrow will be bright. Through the development of our programs my aim is to bring the world together as one people to eliminate conflict. My vision is to cease focusing on our differences based on race and religion, and start focusing on our similarities as human beings. The key to a successful future is to begin by planning now, in my view the way to plan for that future is through our children, who are the future. Should the necessary steps be taken in the present to educate our children around the world, we can eliminate poverty, conflicts, wars, environmental issues and peaceful solutions can be achieved through education & tolerance.

I welcome you to visit my website www.omnisearch.org to view my plan of action for a world peace solution, inclusive of every race and religion without borders. I would also invite you to visit my personal website www.mahmudhussein.com & my business website www.mhcrudeoil.com My vision is to create a better world through education; I am not seeking any financial donations as I will be financing this project with my own funds. My aim is only to seek your support and your valued opinion; I respectfully await any feedback you might share.

Sincerely,

Mahmud Hussein
